Pure-Flo™ Sanitary Diaphragm Valves - Standard and Customized Forged and Fabricated Designs: GMP®, Sterile Access, Zero Static "T", Divert Valve and By-Pass valve. Manual and Automated Valves.

Igenix® line of Sanitary Ball Valves. True-Bore Two-Way, Multi-Port Divert, Flush Bottom Tank, Manual and Actuated. Ideally suited for Pure Steam and CIP/SIP Service. Manifolds and Specialty Designs.

Sanitary Vortex, Magnetic, and Coriolis Flowmeters; DP, Multivariable D/P, Pressure, Level, and Temperature Transmitters; Single Loop Controllers; Analytical: pH, Resistivity, and Conductivity.

Steam Traps: Mechanical, Thermodynamic; Thermostatic Designs, Trap Diagnostic Equipment & Services; Condensate Pumps, Separators, Compressed Gas/Air drains, Regulators (Self Op & Motorized), Check Valves, Air Vents (Steam & Water)

Gas Analyzers for Safety and Process Monitoring Including Combustibles, Toxics, Oxygen, and Refrigerants in Multiplex and Stand Alone Designs. Portable gas detectors, SAFESITE® Chemical Agent Detectors, Self Contained Breathing Apparatus.

Pharmaceutical and Biotech process instrumentation: Pressure, Temperature, and Level. Sanitary transmitters with HART output. New CPM Zero Dead-Leg Fittings.

GE  
 Sensing & Inspection Technologies

State-of-the-art High Performance and accuracy Ultrasonic Flowmeters for both clamp-on portable and in-line fixed installations. Precise pressure measurement sensors, and indicators. Moisture and dew point instrumentation. Process and Portable Calibrators with National Standard references.

High Purity Platinum Cured Silicone Gaskets. Orifice Flanges, O-Rings, and Thermocouple Gaskets. Tef-Steel. TFE and Silicone Screen Gaskets, Torque Clamps and Sanitary Hoses.

Process Wiring Solutions: Cordsets, Junction Boxes, Conduit Adapters, Control Cable, Remote I/O. Device Net, Asi, Foundation Fieldbus, Profibus-PA, HART, and Ethernet Interface. Intrinsic safety barriers.

Thermal Mass Flowmeters, Flow and Level Switches. Hi Purity, NIST Traceable Calibration Facility. Non-Intrusive and Insertion Type.

Position, Control, and Network Valve Monitoring Systems: ASI, Device Net Foundation Fieldbus. Proximity Positioners and Sensors.
